Introduction

Welcome to FISHapp.

FISHapp is a PSA-developed web application that serves to provide an easy way for employees across the PSA Group to send each other FISH messages of appreciation.

Doing your part to show appreciation for colleagues who have displayed the FISH & FISH+ Principles will go a long way towards creating a great Smell of the Place at CrimsonLogic.

We encourage you to connect with your colleagues and Make Their Day by sending heartfelt FISH messages.

This document serves as a guide for CrimsonLogic employees on how to use the FISHapp.

FISHapp Overview

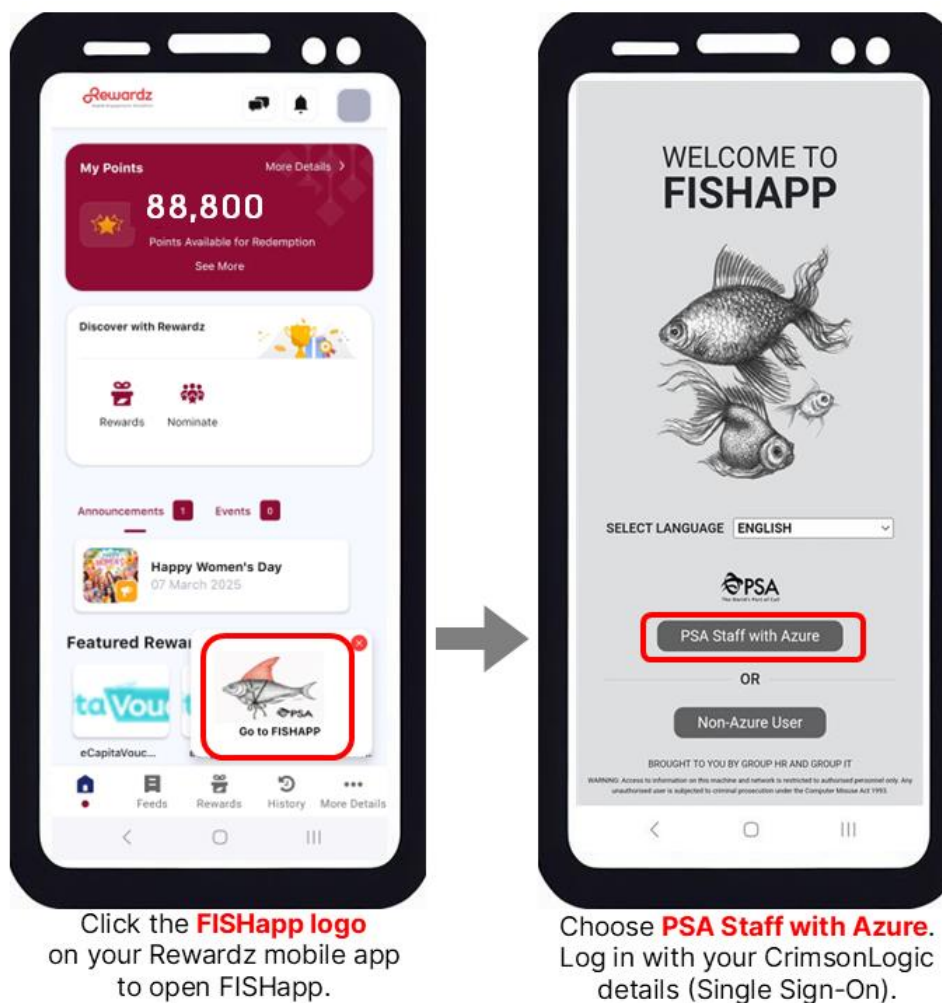

Recommended Browsers

FISHapp is a mobile-friendly web application. It works on most modern web and mobile browsers (iOS, Android, Xiaomi, HarmonyOS):

- We recommend using popular mobile browsers such as Google Chrome, Safari, Microsoft Edge or Mozilla Firefox
- FISHapp may not work properly on Huawei's native browser, Quark browser and QQ Browser

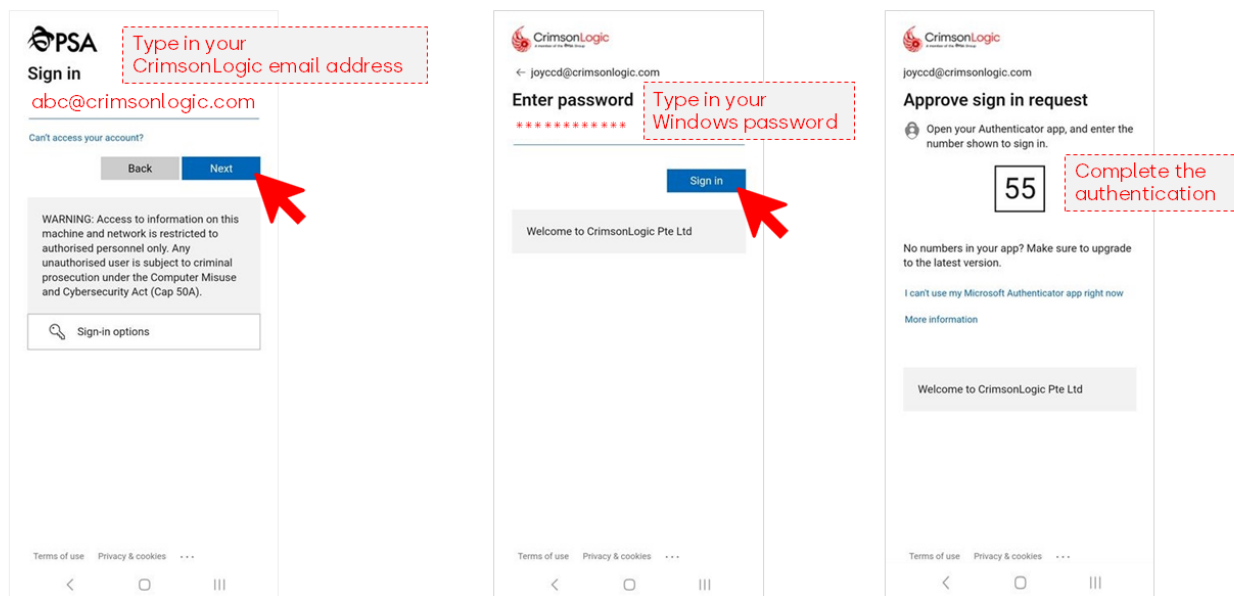

FISHapp Access

You can conveniently access FISHapp using your phone via the CrimsonLogic Rewardz mobile app (Refer to the Appendix for instructions on installing the Rewardz app).

On the Welcome to FISHapp page, choose **PSA Staff with Azure** .

Single Sign-On (SSO) is enabled for FISHapp, similar to other CrimsonLogic applications. When prompted, type in your CrimsonLogic email address and follow the SSO procedure.

Follow the CrimsonLogic Single Sign-On (SSO) prompts.

FISHapp Troubleshooting

If you face technical issues with accessing FISHapp:

Clear your browser cache

Check your browser's support site for the latest instructions to clear your mobile browser cache:

- [Google Chrome](#) sample instructions
- [Microsoft Edge](#) sample instructions
- [Safari](#) sample instructions

Check if your mobile device is configured to access CrimsonLogic applications

- Your mobile device should have Mobile Device Management (MDM) enabled to access CrimsonLogic applications
- Please raise an IT Service Centre ticket to request to enable MDM on your device

FISHapp Use

Send FISH Today

Logging on to the FISHapp conveniently directs to the SEND FISH TODAY page, where you can easily craft your FISH message of appreciation.

* required field

To * Search for the colleague's name or email address.

You may send FISH to several colleagues across the PSA Group in one go.

Cc Search for the colleague's name.

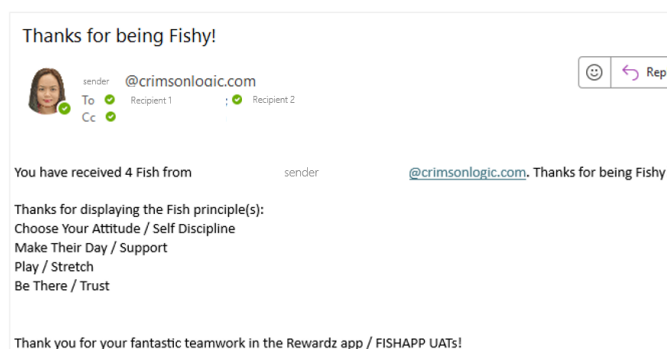

You may copy several colleagues in one go.

No. of Fishes * Choose from the dropdown list (1-4) to select how many FISHes you want to send.

Your Message * Create your simple but heartfelt appreciation message, citing the specific gestures that you are thanking your colleague/s for.

Tip: Feel free to use your Generative AI tools like Copilot for ideas and inspiration!

Click  after completing the fields. You should see a confirmation that your FISH message has been sent successfully. You and the FISH recipients will also get an email notification.

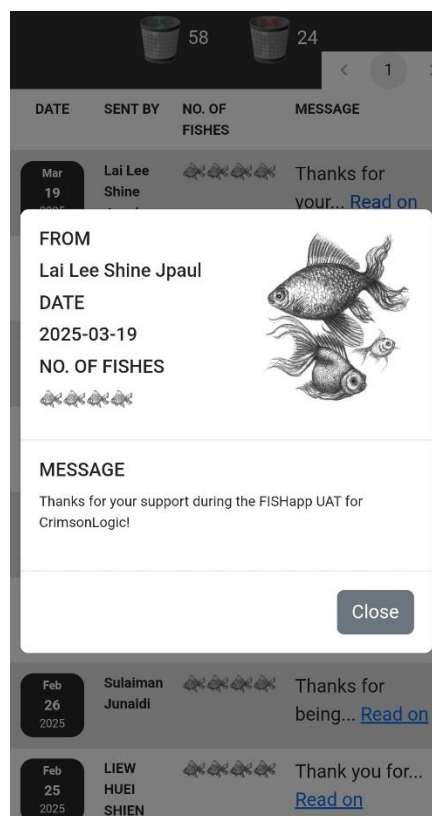

FISH Messages (IN, OUT)

Aside from the email notification, your IN or OUT Fish Buckets will also be updated when you send or receive FISH. You can see how many FISHes you have sent and received on the FISHapp home page (Note: FISH counts will be updated on the buckets the next day).

Clicking on the respective bucket will display a list of the FISH messages received or sent. Clicking each row will display the full details of the FISH message.

Frequently Asked Questions (FAQs)

FISHapp Access

How do I access FISHapp?

You can access FISHapp using your phone via the CrimsonLogic Rewardz mobile app. Click the FISHapp logo on your Rewardz app to open FISHapp. There is no separate app installation needed for FISHapp.

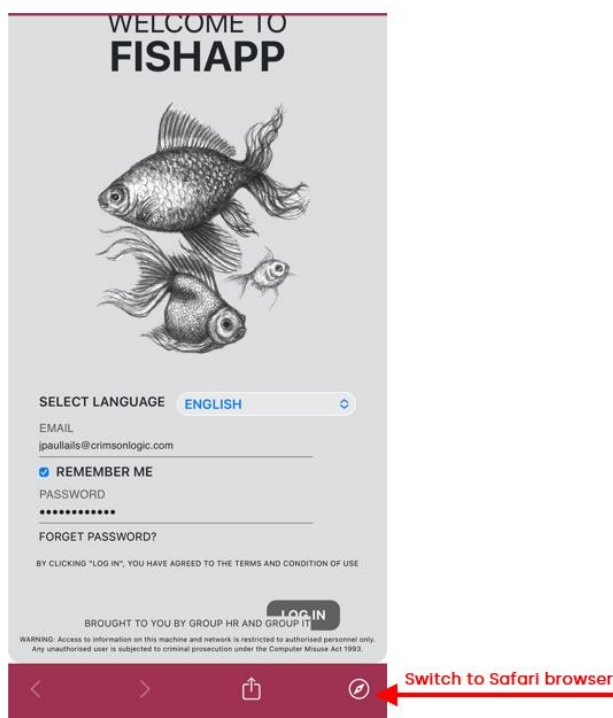

If you have yet to install the Rewardz app, refer to the Appendix for installation instructions.

Can I access FISHapp using any phone?

Your phone should have Mobile Device Management (MDM) enabled to access CrimsonLogic applications like FISHapp. Please raise an IT Service Centre ticket to request to enable MDM on your device.

Why is the FISHapp page not completely displayed on my phone?

FISHapp works on most modern web and mobile browsers. In case you encounter issues with browser compatibility, check if there is an option in the app to switch to a different browser (example below). We recommend using popular mobile browsers such as Google Chrome, Safari, Microsoft Edge or Mozilla Firefox.

What is my FISHapp password?

You do not need a separate FISHapp password. Single Sign-On (SSO) is enabled for FISHapp, similar to other CrimsonLogic applications. When prompted, type in your CrimsonLogic email address, your Windows password and follow the SSO procedure.

I am getting this error while trying to log on to FISHapp:

All permanent and direct contract employees of CrimsonLogic will have access to FISHapp. If you have recently joined the company, your FISHapp account should be created within the month. Otherwise, please raise an IT Service Centre ticket to investigate the error.

FISHAPP Use

Can I send FISH to colleagues in PSA?

Yes. You may send FISH to CrimsonLogic and PSA colleagues by doing a name or email address search.

FISHapp allows sending FISH to multiple colleagues in one go. Keep in mind, however, that the app may time out if you try sending to numerous names (e.g. more than 20 colleagues) at once.

How do I check the FISH that I have sent or received?

The FISHapp home page displays IN and OUT fish buckets that indicate the number of FISH received and sent, respectively. Clicking on each bucket will load a list of the FISH messages received or sent. Click each row to show the full details of the FISH message.

I have sent/received FISHes but they are not reflected in my FISH count.

FISH counts will be updated on the buckets the next day.

Will the colleagues in Cc also get an increase in FISH count?

The individuals in the Cc field are copied in the FISH email notification, although the FISH will not be counted towards their tally.

Can I send more than 4 FISHes?

Yes, if you are deeply touched and impacted by your colleague's act. You can send another message and select the additional number of FISHes that you wish to give. If you are giving more than 4 FISHes, we encourage you to provide additional descriptions of the gestures that you are appreciating.

Is there a limit to the total FISHes I can send or receive?

You are encouraged to send as many messages to your colleagues globally using FISHapp to show your gratitude towards their support.

Will the FISH messages I sent or received be archived?

Yes, PSA conducts a regular archiving of the accumulated FISH messages, typically done once a year. There will be a notification from Group HR or Group IT when the message archiving will take place.

Who can I contact for questions on FISHapp?

For questions or clarifications on FISHapp, feel free to reach out to leahgohel@crimsonlogic.com.
